

## DESOTEC – Field Service Technician - Red Bluff

**Desotec is now hiring a Field Technician for our Red Bluff, CA service hub.**

**Responsibilities:**

- Execute carbon exchanges at customer sites with slurry tankers. While at the customer site, you will operate the tanker, air compressor, customer equipment, and various forms of man lifts if needed.
- Transport the Hurricane vacuum unit to and from customers' sites with a truck. While at the customer's site, you will be responsible for using the Hurricane to remove the spent carbon from the customer's vessel. Once the vessel is empty, you will use a forklift to fill it with bulk bags of fresh carbon. Loading and unloading techniques may vary.
- Operate specially designed mobile filter hydraulic trailer at customer's sites to exchange spent filters with fresh ones.
- Assist with loading and unloading filters and tankers at the Red Bluff Hub.

**Core Responsibilities:**

- Create and sustain a safe working environment and culture within the company
- Communicate well with customers
- Must be able to work well in a team environment
- Ensure company property is well-maintained
- Desire to learn

**Skill Requirements:**

- Driver's License is required
- Perform physical functions per job requirements
- Solution-oriented mindset
- Proficient with mechanical tools and equipment
- Class A CDL license and experience

**Beneficial Qualities:**

- 2 years Field Service experience
- Hazardous Materials Endorsement
- Dry bulk experience

**What's in it for you as a Expert Field Technician at DESOTEC?**

- The chance to make your mark within a dynamic, fast-growing and results-oriented company that makes a difference for the environment and climate.
- An environment that values you for your work and as a person.

- Personal and professional growth through training.
- Career development opportunities according to your own interests and the needs within Desotec.
- A fair and high-quality salary package with Medical, Vision, Dental, Life, 401k, Vacation and Holiday Pay, and much more!

**To protect the planet – that’s our mission at DESOTEC.**

Desotec's **sustainable mobile filtration solutions** based on activated carbon are deployed for the treatment of Air Emissions, Wastewater, Remediation, Chemicals and Biogas. Through a **rental model**, our filters are distributed to production companies globally. Once the filter is saturated, it is replaced, and the spent carbon sent for **recycling & re-use**. That is how we **unburden our customers** of the administrative, moral, logistical and ecological consequences of their purification needs. The result: they can focus 100% on what really counts - sustainable production.

*That is how we fight for (y)our brighter future!*
