

## DESOTEC - Senior QESH Specialist

### Senior QESH Specialist

**DESOTEC is looking for a Senior QESH Specialist to join our Red Bluff, California facility.**

In this role you will mentor and support the business with their execution of Quality, Environmental, Safety, and Health (QESH) compliance, driving development, implementation, and continuous improvement. The Senior QESH Specialist will oversee DESOTEC's QESH programs for the Red Bluff, California and possibly the Parker, Arizona sites to achieve and maintain compliance with Federal, State, and Local regulations as well as company policies and procedures. This role reports to the CEO of the organization.

**As the Senior QESH Specialist you will have the following tasks/responsibilities:**

#### **Core Responsibilities and Tasks**

- Develop and implement quality, environmental, health and safety policies and procedures
- Develop, review, and submit reports related to environmental permits, plans, and reporting obligations
- Maintain compliance with site-specific environmental permits, plans, and reporting obligations
- Collaborate with external compliance company to develop, review, and submit all information for permit renewals and modifications for the facility's Permits
- Facilitates environmental audits with Federal, State, and Local agencies
- Conducts workplace environmental, health, safety, and quality inspections and audits Collaborates with team members to identify, prioritize, perform, and track corrective actions as needed
- Conducts risk assessments and implements strategies to prevent accidents and injuries
- Ensure that all incidents and near misses are investigated to identify root causes and that proper corrective actions are implemented
- Promotes a proactive approach to safety throughout the organization focusing on leadership and employee engagement

- Implement quality assurance programs and processes to monitor and improve performance at the Red Bluff and Parker facilities
- Coordinates all onboardings and annual physical assessments to maintain compliance with medical surveillance program, hearing conservation, and respiratory protection
- Conducts/organizes misc. training on quality, environmental, health and safety procedures. (e.g., forklift, confined space, LOTO, HAZWOPER, DOT HazMat, Arc flash) for the Parker sites
- Complete customer and client requests as needed

### **Who are you as the Senior QESH Specialist?**

#### **Qualifications:**

- Bachelor's degree in Occupational Health & Safety or related Engineering or Science field
  - Preferred Associate or Certified Safety Professional or related
- Minimum of four years of Environmental, Health and Safety or related experience
- Experience in an industrial manufacturing / warehousing environment
- Knowledge of RCRA and Air permitting is preferred but not required
- Ability to influence at all levels of an organization
- Ability to establish, maintain and foster a positive and harmonious working relationship with stakeholders within the business
- Excellent communication skills, able to communicate effectively, including preparation and development of clear, concise and accurate reports
- Strong organizational and time management skills, able to work independently, handle multiple projects simultaneously
- Comfortable working in virtual environments with remote teams and across a broad set of stakeholders
- Mature judgement and decision-making ability
- Strong computer skills including proficiency in Excel, Word, Outlook and PowerPoint, online software platforms, with the ability to use spreadsheets and data analysis application
